

Wash-Away Dissolvable Stabilizer

Soft & Sheer
Stronger Than Films
Completely Dissolvable
No Fiber Residue
Great for Free Lace, Emblems, Napkins, etc.
Perfect for fleece blankets

Directions

Please test thoroughly prior to beginning any project.

1. Before handling Wash-Away, be sure that hands and work area are completely dry.
2. Cut piece larger than hoop. Hoop Wash-Away with or without article depending on application.
3. If spray adhesive* is needed, apply light coverage only where needed. *Note: This may cause difficulty in the removal of Wash-Away if used too liberally.
4. Embroider/sew article.
5. To dissolve, submerge article in liberal amounts of warm water and apply a slight agitation, or run through a delicate wash cycle. Due to hard water conditions, it may be necessary to repeat this step.
